

AMAN JOSHI

Full Stack Developer

aman.joshi6915@gmail.com | 9762303180 | linkedin.com/in/aman-joshi-1a20a0252 | Lalitpur, Sanepa

SUMMARY

Computer Engineering graduate with 2+ years of experience building production Java and Node.js backends, IoT systems, and modern frontends with Angular, React, and Next.js. Currently a Full Stack Developer at Mentor Friends, working across client products on transaction systems, payment integrations, and full-stack feature delivery.

EXPERIENCE

Full Stack Developer — Mentor Friends

Trade Tower, Thapathali | 04/2024 — Present

- Reviewed code and helped make client applications production-ready.
- Mentored freshers on backend architecture and debugging.
- Owned backend systems: transaction management, third-party API and payment gateway integration.
- Client work: a2aorchestra.com (Node.js token/transaction backend), sleepinghats.com
- (frontend + payment gateway), BoomMarket (transaction integration + frontend),
- BoomConsole (project management / CRM platform, full stack).

PROJECTS

Site Tracker (Ongoing)

Expo / React Native crew location tracking + geotagged site camera app.

Employee Management System

Full stack app with authentication and employee CRUD operations.

IoT Based Smart Parking System

IR sensors for vehicle detection with servo-controlled gate.

Localized Air Quality Monitoring System

Best Project award — real-time air quality + location, drone/vehicle mountable.

SKILLS

Frontend: React, Next.js, Angular, HTML, CSS, Bootstrap

Backend: Java, JDBC, Node.js, ExpressJS, MySQL

Soft skills: Teamwork, Communication, Public Speaking, Decision-making, Leadership
